

# WIRTGEN CHINA LUBRICANTS THE ELIXIR FOR YOUR MACHINE FLEET

Close to  
our customers

Wirtgen China lubricants combine the best base oils and unique additives in tailor-made specifications. For you, this means tolerability with the first filling, optimum protection against wear and perfect corrosion prevention. These factors increase the performance and service life of your machines.

## Wirtgen China Special Oils

### Wirtgen China Special Gear Oil

A special fully synthetic high-performance gear oil for HAMM vibration bearings and drum drives, as well as for VÖGELE transfer gearboxes and traction drives. Extremely resistant to pressure and temperature.

Container size: 4L, 20L and 205L.  
Item No.1 - 3

### Wirtgen China Gear Oil

Latest generation of mineral gear oil for versatile use in gearboxes and axle drives. by maximum protection against wear and oxidation.

Container sizes: 4L, 20L and 205L.

### Wirtgen China Milling Drum Gear Oil

Exclusive fully synthetic gear oil designed for highperformance use in Wirtgen milling drum gearboxes. Extremely resistant to pressure and temperature.

Container sizes: 4L, 20L and 208L.

### Wirtgen China Engine Oil

A powerful, high-performance engine oil made from excellent base oils and special additives. Increases the power output of your engine while at the same time ensuring maximum operational reliability.

Container size: 4L, 20L and 205L

### Wirtgen China Hydraulic Oil

High-quality multipurpose hydraulic oil with high viscosity index for optimum protection against wear, even under the most adverse job conditions. Thanks to a new, refined specification, oil change intervals are long. Optimum cold-start properties are guaranteed.

Container size: 20L and 205L.

## Wirtgen China Special Greases

### Wirtgen China Multipurpose Grease

Finest multipurpose grease for a broad range of lubricating tasks, such as pivot bolts and wheel bearings. Thanks to the latest additive technology, this product is particularly suited to conditions subject to impacts and vibration.

Container size: 1x 400g cartridge and 17kg container.

### Wirtgen China Friction and Roller Bearing Grease

Exclusive grease for lubricating rolling and plain bearings exposed to high temperatures in VÖGELE machines.

Container size: 1 x 400g cartridges or 12 x 400g cartridges or 17kg container.

### Wirtgen China Telescopic Tube Grease

Special high-performance silicon-based grease for use on VÖGELE telescopic tubes. 100ml tube.

### Semi-Fluid Grease

For auger drives in SUPER 1203, SUPER 800 and SUPER 600 pavers.

Container size: 17kg.
